## PACIFIC at the Porsche Grand-Prix-Stuttgart: No one here is tenderly strung!

Jelena Jankovic, Elena Dementieva and Dinara Safina – are they all tightly strung? Or do these Stars at the Porsche Tennis Grand Prix like their strings looser? You can find it out at the PACIFIC booth in the Sport & Lifestyle Village. The Racquet and Tuning Specialist from Hochdorf near Esslingen, Germany are again doing the Stringing Service – as they have for many years here at the Porsche-Grand-Prix. Here the public can get the actual individual racquet details (data) at the PACIFIC booth for any of their favorite player's.

The competence of PACIFIC is well known in the service scene – they are actively working for different Davis-Cup-Teams and for many tournaments of the ATP World Tour – of which PACIFIC is the Official Partner to the ATP for Strings, Grips and Stringing Machines.

The visitors to the Sport and Lifestyle-Village (at the Porsche-Tennis-Grand-Prix) can also benefit from these professional technician's who welcome the public to bring in their own racquets to the PACIFIC booth and be serviced by the Official Stringing Service! This Service under the motto "Racquet Check" is available during the entire tournament for a special price. Besides the Official ATP strings & grips there are also trendy tennis bags and functional sport and lifestyle apparel for purchase.
